Education

McMaster University

Sep 2021 – Present

Bachelor of Applied Science in Computer Science

Hamilton, Ontario

- **Relevant Coursework:** Data Structures and Algorithms, Databases, Web Programming, Applications of Machine Learning, Natural Language Processing, Human Computer Interfaces, Operating Systems

Experience

Cooperators

Sep 2024 – Aug 2025

Associate Technical Support Specialist

Burlington, Ontario

- Resolved **100+ Windows/macOS tickets monthly** while maintaining a **95% SLA**, consistently ranking among top ticket resolvers and supporting senior staff and board members.
- Collaborated with cross-functional teams and vendors, improving resolution time by **20%**.
- Developed custom **PowerShell** scripts integrating with **ServiceNow API** to automatically triage and reduce manual processing time by **40%**.
- Authored **25+ internal knowledge articles**, reducing repeat inquiries by **25%**.

MoMacMo

Jun 2023 – Dec 2023

Software Developer Intern

Remote, Ontario

- Deployed geophysical datasets on Microscopium using **AWS**, enhancing visualization and analysis of complex data.
- Engineered and deployed Microscopium using **Python, Matplotlib, and ngrok** for reliable public access.
- Optimized Python data pipelines using batch processing and AWS S3 storage strategies, reducing runtime by **25%** and lowering AWS costs by **35%**.

Projects

NexDerm – Skin Disease Detection App

Sep 2025 – Present

FastAPI, Python, PostgreSQL, React Native, Docker

- Engineered an **ensemble CNN pipeline** (DenseNet + ResNet) trained on **10+ GB** using McMaster HPC for robust multi-class classification.
- Implemented **ensemble of DenseNet and ResNet** with advanced data augmentation and hyperparameter tuning, achieving **80%** validation accuracy on **36.7k** dermatology images
- Improved diagnostic performance via **advanced architectures**, regularization, and hyperparameter tuning, achieving strong validation accuracy.
- Built a **scalable full-stack platform** with **Node.js REST APIs** and **PostgreSQL** supporting secure image uploads and real-time ML inference.

CityLab – City of Hamilton SharePoint Optimization

Sep 2025 – Dec 2025

SharePoint Online, UX Research, Figma

- Partnered with the City of Hamilton to redesign **SharePoint Online** for **30+ municipal staff**, improving navigation efficiency by **30%**.
- Conducted **15+ user interviews**, surveys, and workflow analyses to identify collaboration bottlenecks.
- Delivered modern **UX-driven layouts**, documentation, and training resources enabling smooth adoption.

Local AI Agent

Aug 2025 – Jan 2026

LangChain, Ollama, Python, REST APIs

- Built a **local AI agent** enabling offline LLM workflows, prompt chaining, and tool automation.
- Designed a modular **AI agent framework** with **LangChain** and **Ollama**, allowing rapid integration of new tools and offline LLM workflows, reducing inference latency by **30%**
- Designed **modular agent architecture** allowing rapid integration of new tools.
- Demonstrated secure, cost-efficient AI deployment for privacy-sensitive environments.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS, PowerShell, Bash

Developer Tools: Git, GitHub, VS Code, Jupyter Hub, AWS, Docker, ngrok, Postman, Jira, Confluence, Excel, PowerBI

Frameworks: NumPy, Pandas, scikit-learn, PyTorch, TensorFlow, React, Tailwind CSS, Node.js, MongoDB, PostgreSQL, Figma, LangChain, REST APIs
